-----------------------	-----

I. Survey Papers

Advances in thermal treatment and RDF	
D.V. Jackson (Stevenage, Great Britain)	1
Waste management and recycling trends in Japan	
S. Gotoh (Tsukuba, Ibaraki, Japan)	15
Materials and energy from refuse: Trends in the United States	
H. Alter (Washington, DC, U.S.A.)	29
Black points: Detection, evaluation and control	
A. Buekens and J.B. Nieuwejaers (Brussels, Belgium)	39
Advances in treating heavy metals containing wastes	
M. Tels (Eindhoven, The Netherlands)	71
Hazardous waste management — The way forward	
D.C. Wilson and C.J. Parker (London, Great Britain)	93
Black points: Liability for clean-up costs	
H. Bocken (Ghent, Belgium)	105

II. Materials Recycling

Recyclinggerechte Produktgestaltung als Grundlage für ein optimales Stoffrecycling	
W. Jorden (Paderborn, F.R.G.)	119
Mill fuel and mill cover recycled products from shredder fluff	
K.E. Boeger and N.R. Braton (Madison, WI, U.S.A.)	133
Perceived costs and benefits of buying and using a subsidized compost container	
R.G.M. Pieters (Leiden, The Netherlands)	139
Coal ash applications for road construction in The Netherlands	
N. Bolt (Arnhem, The Netherlands)	155
Die Verwertung von Baumrinde als Torfersatz und Kompostdünger	
P. Voelskow (Aitern-Schönau/Schwarzwald, F.R.G.)	169
Separate Sammlung von Wertstoffen und Kompostierbarer Substanz	
W. Bidlingmaier (Stuttgart, F.R.G.)	179
Glass recycling prospects and limitations	
W.L. Dalmijn (Amsterdam, The Netherlands)	195

III. Energy from Waste

Analysis of household waste and measurement of thermal emissions	
K.E. Lorber (Berlin, F.R.G.)	205
Practical operating experience in combustion of refuse derived fuel in fluidised bed hot gas generators and shell boilers	
R. Golden (St. Helens, Great Britain)	225
Waste fuel densification: Pelleting technology, handling and storage properties	
G. Härdtle, K. Marek and B. Bilitewski (Berlin, F.R.G.)	235
Refuse-derived fuel: Composition and emissions from combustion	
W. Bünsow and J. Dobberstein (Berlin, F.R.G.)	249
Combustion of sewage sludge with heat recovery	
A.H.M. Verkooijen (Eindhoven, The Netherlands)	257

IV. Landfill

Purification steps for landfill gas utilization in cogeneration modules	
H. Dernbach (Braunschweig, F.R.G.) and K.D. Henning (Essen, F.R.G.)	273
Natural gas from landfill gases	
E. Pilarczyk, K.D. Henning and K. Knoblauch (Essen, F.R.G.)	283

V. Composting/fermentation

Anaerobic fermentation of refuse	
L. de Baere, P. van Meenen, S. Deboosere and W. Verstraete (Ghent, Belgium) ..	295
The Silorco-Siloda process: A complete household refuse treatment line combining refuse-derived fuel and compost production for better waste management	
P. Mousty (Paris, France) and J.P. Levasseur (Courbevoie, France)	309
Heavy metal sources and contamination mechanisms in compost production	
G.R.E.M. van Roosmalen (Eindhoven, The Netherlands), J.W.A. Lustenhouwer (Amsterdam, The Netherlands), J. Oosthoek (Amsterdam/Wageningen, The Netherlands) and M.M.G. Senden (Eindhoven, The Netherlands)	321

VI. Hazardous waste

Removal of copper from an industrial wastewater stream	
M.A.G. Vorstman, W.H.P. Trimbos and M. Tels (Eindhoven, The Netherlands) ...	335
Detoxification and energy recovery by wet air oxidation of waste streams	
H.N. Akse, M.M.G. Senden, M. Tels (Eindhoven, The Netherlands) and J.H.O. Hazewinkel (Leidschendam, The Netherlands)	351
Gas-phase thermal hydrogenolysis of organic chlorine compounds: An alternative to incineration	
R. Louw, J.A. Manion and P. Mulder (Leiden, The Netherlands)	365
